24 MS. BROWN: Lori, L-O-R-I, Lipman,

25 L-I-P-M-A-N, last name Brown.

0014

1 I've lived here 25 years, long enough to
2 remember that the scientists who concluded Yucca was
3 not suitable was fired; long enough to remember the
4 internal memo which is disclosed that the dump is a
5 public relations project, not a scientific study.
6 Shame on the DOE for asking or telling Nevadans to sell
7 their health and safety.
